WORSHIP.

**GARMENTS FOR SPORTS WEAR** ELIJAH'S CHALLENGE OF BAAL Knitted Capes Are Among the Most Favored Numbers; Sweaters LESSON TEXT-I Kings 18:1-46. GOLDEN TEXT-This is the victory in Tuxedo Models.

Knitted garments, apparently, are being more and more strongly featured in the new sports wear showings. Knitted capes, large affairs which drape into shawls, are among the most favored numbers. Silk and wool mix tures are popular, usually in two-tone mixtures, about 60 per cent silk. Suits of the darker mixtures are bound about with bright colored bands. An attractive dress is shown with fur collared cape to match. The cape may be tied at the waistline, giving smart overskirt effect to the garment. Knitted capes, large affairs which drape into shawls, are hand made. Sweaters are shown in Tuxedo models, or slipon with V or straight neck. Silk numbers use bright colored stripings, Knicker costumes continue to feature, but are being more in demand for sports than for street wear. Western houses form the bulk of the order business, it is said, many calls coming for the separate knickers. An effective original design golf costume of soft material in tan with brown overplaid is featured by a prominent sports house. The suit consists of sleeveless jumper, skirt, cape and knickers, the latter included if desired. The skirt fastens at the side, and may

and lined with black satin. The con- NOW USE DYED RASBIT SKIN

FRENCH CRISIS DISTURBS

Delegates To Pursue An Even Tenor Until Temper Of The New French Cabinet Is Learned.

Solution of Inclusion of "Home-

land" Islands

Washington.-Details of both the naval treaty and the Shantung negotiations are being ironed out. The "Big Five" completed its first revision of the naval convention and sent the text back to its legal experts for a redraft of the changes made. In the Shantung conversations further supplemental agreements were reached by the Japanese and Chinese and a new promise of progress on the Central question of the Tsingtao-

Tsinanfu Railroad was held out by series of compromise proposals nggested informally by Secretary UANOIN Hughes and Arthur J. Balfour. Word of the resignation of Premier Briand of France created a stir in Conference circles, but the disposition in French quarters was to minimize its immediate effects on the Washington negotiations. Albert Sarraut, head of the delegation, anhounced that he would go ahead with Only One Man his Conference duties pending instructions from the new Cabinet, and indicated his belief that the change of

administration would not vitiate the agreement projects here. Included in the few treaty provisions SCOUTS LYN not yet finally accepted in the informal conversations of the "Big Five" are understood to be the sections relating Charges Made By to disposition of scrapped ships and fxing a "status quo" for Pacific fortifications. On the former, however, the chief delegates are said to be in virtual agreement, while in regard to fortifications the instructions awaited from Tokio are generally expected to ing that of form make an early settlement possible.

None of the five Powers has at pres- committee inves ent a modern airplane carrier, and American soldier the ratio agreement permits them to without trial in F build from two to five each.
